

although admitting their hand in being repulsed somewhat. Since the fall of Bulgaria no doubt of great strategic importance has occurred in this new war theatre. Serbia is making a desperate attempt to stem the large German and Austrian forces, which are being augmented continually. Serbian officers profess confidence that it will be possible to make successful resistance, even with inferior numbers, on account of the difficulties which the mountainous country presents to the invader.

The Serbians are awaiting a Bulgarian attack between Gornostol and Strumitsa, near the Greek border. They expect an attempt will be made to cut at this point the railroad between Salonica and Nish, and to subvert such a movement they have concentrated artillery in this district.

Unofficial messages from Rome declare Italy is about to send troops to aid the Montenegrins in an invasion of Bosnia and Herzegovina, annexed by Austria a few years ago. Great regret is felt here that Italy has not already begun to participate in the Balkan expedition.

The Daily Mail's correspondent at Salonica declares 1,000 fully equipped Bulgarian troops deserted into Roumania rather than fight the Serbs.

The same correspondent adds that the first French infantry regiment has reached Serbia from Salonica, being greeted wildly as it entered Serbian territory.

Gen. Sarail, commander-in-chief of the French forces in the Dardanelles and Orient, has arrived in Salonica, being given a cordial welcome by the civil and military authorities and by the people of the city.

King Nicholas of Montenegro is quoted in Paris as having declared: "We are fighting in the enemy's territory, we are ready and we fear nothing."

The offensive begun by Austria all along the Montenegrin front has been repulsed and the military situation is said to be satisfactory.

A MOTOR MARRIAGE.

Staged With Chauffeur, Told Mother of Wedding Over Phone.

Conjecture as to the simultaneous disappearance of Miss Ruth Dean, eighteen years old, daughter of Mr. and Mrs. Frank Dean of Hempstead, L. I., and George A. Little, twenty-seven years old, chauffeur for P. B. L. Attwood of Garden City, ended today when Mrs. Dean announced the marriage of her daughter in Brooklyn last Saturday. She admitted it was an elopement and that the first she knew of it was when her daughter called her on the telephone Saturday and said:

"George and I have just been married, mamma dear."

The couple motored from Brooklyn to Atlantic City.

RID STOMACH OF ACIDS, SOURNESS, GAS, INDIGESTION

"Pape's Diaprepain" makes upset stomachs feel fine at once.

Acidity, heartburn, belching, pain and dyspepsia just vanish.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, nor eruptions of undigested food, no flatulency, bloating, foul breath or headache.

Pape's Diaprepain is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diaprepain will save them from any stomach misery.

For your sake, get a large fifty-cent can of Pape's Diaprepain from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it, enjoy it, without dread of reaction in the stomach.

Pape's Diaprepain belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known—Adv.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure purgative. They cleanse the liver and stomach, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little round tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong purgatives or cause the teeth to be sore and sorely annoyed. They are the result of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes makes havoc with the teeth, so do strong purgatives.

It is not hard to take calomel, but to get Dr. Edwards' Olive Tablets take the same. Most headaches, dizziness and all that liver trouble and constipation are a disordered liver. Take Dr. Edwards' Olive Tablets. You will feel "clean" and healthy and how they "work" you'll see. The Olive Tablets Company, Columbus, Ohio.

RUSSIAN CAVALRY CHARGES ACROSS GERMAN TRENCHES

Petrograd Claims Important Victories in Galicia, Near Roumania Frontier.

ON OFFENSIVE AGAIN.

Czar's Staff Fails to Tell of Repulse Along the Entire Line.

LONDON, Oct. 14.—According to advices from Petrograd, the position of the Russian armies is growing better every day, the Czar's troops having resumed their striking power and placed the Austro-German invaders on the defensive. This is especially true of the southern front in Eastern Galicia, where the Russians have pierced the last line of Austrian defenses on the Strypa River, near the Roumanian frontier.

It is believed the Czar's victories in this sector will wield a powerful influence over the Roumanian people and may bring them into the war on the side of the Quadruple Entente.

An official report issued by the Petrograd General Headquarters in Petrograd late last night told of numerous Russian victories and detailed a marvellous charge of Russian cavalry through three lines of enemy trenches, slaying the defenders in them. The report was as follows:

"On the western front in the Riga region we captured a German hydro-aeroplane. On the front of the Dvinsk region enemy attacks were repulsed. An engagement west of Iloukett ended in our occupation of the heights northwest of this village. The Germans attempted to recover the positions lost but failed. The cannonade continues on the whole front. The Germans repeatedly attempted to re-establish their positions south of Lake Demmen, but after suffering severe losses gave up. East of the village of Gavranitsky the Germans twice attacked us, but were repulsed. "Notwithstanding the violent German fire our troops crossed the isthmus between the lakes south of Drevlaty.

"South of the Pripet, on the left bank of the Styr, the enemy was dislodged from Alexandra farm and the village of Roudhelskavolaka. We captured five officers, 200 men and two quick fires."

"In Galicia, in the Strypa region, our troops, developing their success, seized the village of Vasnioukitch. The engagement here, as well as in the region of Gavronka, captured yesterday, continues with the same intensity."

"Part of our cavalry, alerted from Gavronka without being perceived, deployed rapidly along the front and threw themselves on horseback on the enemy's lines with self-sacrificing courage. The cavalry crossed three lines of the entrenched enemy, putting him to the sabre. After some irregular firing the enemy took flight."

Russian Attacks Repulsed Near Brest, Berlin Says.

BERLIN, Oct. 14.—The following official communication was issued last night:

"Army group of Field Marshal von Hindenburg—West of Dvinsk a Russian attack broke down under our artillery fire. Attempts made by the enemy to take possession of the island occupied by us on Miasoi Lake failed."

"A Russian attack northeast of Smorgon (46 miles southeast of Vinnia), which got as far as our entrenchments, was repulsed."

"A Russian group of our airships bombarded the fortified town of Dvinsk, which was full of troops, with a large number of bombs."

"Army group of Gen. von Linzinger—the enemy was driven out of his positions near Rudka-Bialokoskaja (Podolia), as well as over the line of Alexandra, and was driven over the heights north of that place."

"German troops under Gen. Count von Bothmer threw the enemy out of several positions northwest of Halvoren (32 miles northeast of Buchach, near where the Russians reported a victory)."

Five Newfoundlanders Lost When Ship Destroys Drifter.

ST. JOHN'S, N. F., Oct. 14.—Word was received today that the armed drifter Frang Oliver, one of the British auxiliary fleet operating in the North Sea, was blown up by a mine yesterday. Five naval reservists from this colony were among those lost. The drifter was engaged in picking up German mines.

Fifty-six Years before the Telegraph folks enjoyed pure, mild, mellow Carstairs Rye. Call for Carstairs Rye in the non-refillable bottle—A Good Bottle to Keep Good Whiskey Good.

GERMANS RETAKE ARTOIS TRENCHES IN FIERCE BATTLE

Paris Admits Fox Drives Ahead to Remove Menace to Lens, in France.

ALLIES DECLARE THEY ARE TAKING

"The Trappe" Works in Desperate Fighting.

PARIS, Oct. 14.—Strong German forces have attacked the French lines around Souchez and Vimy. A violent bombardment preceded the infantry attacks, which were renewed from time to time and desperately carried out. The Germans succeeded in penetrating some of the trenches, which had been badly shattered by the shells, but, according to the French official statement, issued last night, were repulsed everywhere else with heavy losses.

(This fighting apparently is an attempt by the Germans to remove the menace against Lens, which is dominated by the Heights of Vimy, only four miles away, now held by the French.)

The text of the communication follows:

"The enemy renewed to-day with strong forces his attacks to the northeast of Souchez against the wood Le Bois-en-Hache, to the east of the road from Souchez to Angres against our positions on the approaches to the five highways on the crest of Vimy, against the small fort previously taken by us in the Givenchy Wood and the neighboring trenches."

"Despite the extreme violence of the bombardment which preceded these attacks, despite the desperate nature of the renewed assaults, the enemy was able to penetrate only some parts of the trenches in the Givenchy Wood which had been completely shattered by shells of heavy calibre. Everywhere else we conserved all our positions and repulsed the assault of the Germans, who suffered very heavy losses."

"Artillery actions of particular intensity are reported to the south of the Somme, in the sector of Lihons; in Champagne, to the north of Souain and Maasgney, in Argonne, to the north of La Harazee and between the Meuse and the Moselle, to the north of Filly."

"In the Vosges we dispersed by our fire an enemy attack against our positions in the Valley of La Lauchoe."

The afternoon statement told of the heavy bombardment by the Germans to the northeast of Souchez, and an infantry attack which was "completely repulsed. It also claimed the French were making progress in the earthwork near Tahure known as "The Trappe."

The Belgian official statement reads: "The enemy artillery has displayed much activity along all the front, bombarding Furnes, Pervyse, Rousdanne, Caeskerke, Roninhe, Noordvichte and Oostvichte. Our batteries retallied on the cantonments at St. Pierre Capelle and Hulchoek. The dispersed groups of enemy foot soldiers at divers points on the front, a minor infantry attack was easily repulsed by our fire."

British Repulsed, French Lose Ground, Berlin Reports.

BERLIN, Oct. 14.—Last night's German official statement with regard to the fighting in Belgium and France says:

"British attacks northeast of Vermeles were easily repulsed."

"East of Souchez the French again lost some portions of the trenches which they were able to keep on Oct. 11."

"In Champagne a French attack yesterday afternoon failed south of Tahure. Repeated attacks on the same place early this morning with several groups of troops broke down completely."

"The Vosges the French lost a portion of their positions on the western slope of Schratzmannelle."

Six French Guns Endanger Fox's Communication Lines.

LONDON, Oct. 14.—The correspondent of the Frankfurter Zeitung at the German main headquarters on the western front telegraphs that the artillery used in the Champagne is continuing with great violence," says a Reuters despatch from Amsterdam.

"The French," the correspondent says, "are particularly attempting to disturb the lines of communication in the German rear by fire of heavy calibre guns. Salient points in the

Miss Alberta Hill and the Hat Suffragists Will Wear on Parade

The managers of the monster suffrage parade which is to march on Oct. 25 have decreed that each parader must wear a soft felt hat, trimmed with a band of suffrage colors, which can be twisted into any shape the wearer deems most attractive or best suited to her style of beauty.

Miss Alberta Hill, a prominent suffragist, is shown wearing one of the hats.

German position, such as Tahure and Soumeux, are suffering heavily."

Western Mills With Big War Contracts Burn Down.

HALIFAX, N. S., Oct. 14.—The Europa Woolen Mills, in Pictou County, were destroyed by fire yesterday, the loss being estimated at \$250,000. The company had large war contracts with the Italian Government.

VILLA WILL PROTECT AMERICANS' PROPERTY

General Denies in Telegram That He Authorized Confiscation of Mines or Cattle in Mexico.

EL PASO, Tex., Oct. 14.—Villa, in a telegram from Casas Grandes, denies he has authorized confiscation of American mining property in Chihuahua or elsewhere. He adds he will not permit American or other foreigners in Mexico, or their property, to be harmed.

Confiscation by Villa representatives of foreign-owned property in Chihuahua State was said to have begun Tuesday. Letters purporting to be from Sylvester Terrazas, Secretary of State, are said to have been received demanding the abandonment of mining property and cattle in favor of Villa officials. No direct reference was made by Villa to the alleged demand upon the American Mining and Refining Company to coin money for the Villa Government.

It was reported the company was given until Oct. 15 to comply with the alleged request. The smelters are closed, it is understood, because of insufficient fuel and unstable conditions of employment.

CABINET FOR CONSCRIPTION?

Kitchener Won Over and Members Believe Policy Will Be Adopted.

LONDON, Oct. 14.—The lobby correspondent of the Daily News reports: "The Cabinet, in the course of a prolonged sitting last night, discussed national service. No definite decision has yet been reached, but the conscriptional members of the Cabinet now believe they will carry their policy."

"Kitchener's sympathies are at last, it is stated, on their side, and they have also secured some converts among the official members of the Labor Party."

U BOAT IN MEDITERRANEAN.

German Craft, Firing Austrian Colors, Sinks French Collier.

TOULON, France, Oct. 14.—The crew of the French steam collier Antoine, which was sunk by a submarine in the Mediterranean last week, have been landed here.

They say that the submarine was a German boat, firing the Austrian colors, and that its commander saved them time to make to their boats.

BISON ROUT GERMANS.

Story of an Odd Battle Comes from Petrograd.

LONDON, Oct. 14.—Bison won a recent fight with a company of German troops in Bielowich forest, Russia, according to a Petrograd account in the Times today.

The soldiers met the herd by accident. Men and bison shared a minute in mutual surprise. Then a shot was fired. The bison charged. Of the soldiers only twenty escaped. Eight of the bison were shot.

ZEPPELIN BOMBS KILL 8 IN RAID ON CENTRE OF LONDON

Two Women Among the Dead—Thirty-four Civilians Injured.

BUILDINGS SET ON FIRE.

One Report Says Bombs Were Dropped in Vicinity of the Strand.

LONDON, Oct. 14.—Zeppelin dirigibles again raided the heart of London last night, dropping high explosive and combustible bombs, killing at least eight persons and wounding thirty-four, besides starting numerous fires. Only the most meagre details of the aerial raid are permitted by the censors.

Shortly after midnight this morning the Home Office gave out the following official statement:

"A Zeppelin raid was made yesterday evening over a portion of the London area, when a certain number of incendiary and explosive bombs were dropped. The material damage done was small. A few fires resulted, but they were quickly put out by the fire brigade. The Admiralty will issue a statement to-day when particulars are available."

"At present it is only possible to say that no public buildings were injured and that the casualties so far reported number two women and six men killed and about thirty-four injured. With the exception of a soldier killed, all these were civilians."

"These figures include all the casualties reported at 11:45 o'clock Wednesday evening."

"A private message received in New York this morning, though giving no details, indicates that bombs were dropped in the vicinity of the Strand and the Hotel Savoy, in the heart of London. Zeppelins also raided French territory last night, one flying over Chateau Thierry, on the right bank of the Marne and not a great distance from Paris, and dropped five bombs, all of which are reported to have fallen outside the town. No one was injured and there was no property loss. The aircraft then returned to its own lines."

Bitter denunciation of the Government's delay in providing better defense against aerial attacks filled the London newspapers this afternoon.

"People who went to business this morning amid a shower of shelled windows," said the Globe, "may be forgiven if they wonder how long this sort of thing will be allowed to go on without effective measures to check it."

"We have a new scheme of defense but it did not defend us. The plain fact is that, apart from wind and weather, London has no adequate protection against Zeppelins."

"Our air defenses," said the Standard, "clearly are not yet up to the mark. As a spectacle the thing was disappointing."

"We learn from an official statement," said the Pall Mall Gazette, "that another Zeppelin last night broke through the aerial defenses of the London district, but we look in vain for an announcement that the raid is proof that we are on the point of commencing to begin, but it is permissible to hope that we will soon have a corps of aerial fighters who can really distinguish between a Zeppelin and a star."

Among the 152 first cabin passengers was Mrs. Henry Morgenthau, wife of the American Ambassador to Turkey. Mrs. Morgenthau kept herself shut up in her stateroom and a steward on guard to prevent her being interviewed said that she was acting in accordance with instructions of the American Consul at Liverpool.

The Hon. Kijiro Okazaki, member of the Japanese Parliament, was among the cabin passengers, and confirmed the statements recently printed in the Japanese press that Russia is furnishing Russia with ammunition in large quantities.

CANEY PENNY A POUND PROFIT

HE FINISHING TOUCH TO THE ENJOYMENT OF THE EVENING PARTY, CANEY LOFT'S DELICIOUS COCOA. It makes no difference how many different kinds of Cocoa you have tried, or how well pleased you may be with the kind you are now using, until you have tried LOFT COCOA, you will never know how long you have denied yourself the enjoyment of the Most Delicious Cocoa that is possible to the aristocracy of skill in Cocoa-craft. After quality, comes the Price. A TEN CENT TIN WILL PRODUCE 20 CUPS. For sale at all LOFT Stores.

SMALLEST REPUBLIC SALUTES GREATEST

Synod of Andorra Congratulates President Wilson on Neutrality and Relief Work.

"Greetings from the President of the World's Smallest Republic to the President of the World's Greatest. Please accept our congratulations on the wisdom with which you have preserved your neutrality; our admiration for your whole-hearted relief work in Belgium and our sincere regard because of the splendid Red Cross work your people have done in all the countries now at war."

This was the substance of a message sent by Pierre Font, Synod of Andorra, to President Woodrow Wilson, which Lawrence Grant, a passenger on the Chicago of the French Line, brought to-day.

Andorra, located on the south slope of the Pyrenees, between France and Spain, has been an independent State since the year 786, in Charlemagne's time. It is only ten miles long by seventeen wide, and has a population of 6,000. Its President, or Synod, is elected every four years by vote of all the people and is elected to him the message to the President of the United States.

President Font, hearing that Mr. Grant was touring in Andorra recently, sent for him and entrusted to him the message to the President of the United States.

DECORATES HERO AS HE DIES

Count Henri de Vogue Succumbs to His Wounds.

PARIS, Oct. 14.—Count Henri de Vogue, son of the late Viscount Maurice de Vogue and a nephew of Marquis de Vogue, President of the French Red Cross, is dead of wounds received in battle. The Military Medal was pinned on his breast a few minutes before he succumbed.

Count de Vogue, who was widely known in Paris society, also was devoted to sports. He won the motor boat race at Mont-Carlin in 1905. He visited New York in 1910. The Count's mother was the Viscountess Amenski, sister of the builder of the Trans-Siberian Railway.

ANNA HILD IS HERE.

Anna Hild, with her eyes about as usual and her mind and personage well, announced on stepping off the St. Louis today that she was looking for a new manager. She has been working in the relief work of various hospitals and relief concerns, where she says she saw so many pitiful sights that it was a great relief to get away from them.

Accredited for Smuggling Opium.

Street sweeper, boarded the St. Louis before she came up the river to-day and arrested Charles Murphy, a fireman, in whose bunk were found twenty-nine cans of opium. He will be taken before the Federal Court.

REALIZED HIS DREAM.

(From the Kansas City Journal.)

"Fish are brain food," remarked one member of the anglers' party as they squatted in the rain.

"I need all the brain food I can get," growled another, "it was an imbecile to come on this trip."

BROKE HIMSELF OF SMOKING CIGARETTES

A St. Louis Man Broke Himself of Smoking Cigarettes and Chewing by a Simple Home Remedy.

Harry Riskin, a well known resident, living at 216 S. 11th St., broke himself of the cigarette habit and chewing with a simple recipe that he mixed at home. In reply to the question as to what he used he made the following statement: "I used a simple recipe which I mixed at home and which is as follows: To 3 oz. of water add 50 grains of Muric acid of Ammonia, a small box of Varlex Compound and 10 grains of Peppin. I took a teaspoonful three times a day. Any drugstore can mix it for you at a very little cost."

"This recipe can be taken yourself or given secretly to another in coffee, tea or milk or in food, as it has no taste, color or smell and is perfectly harmless."—Adv.

Look into the "Mirror" proposition—You can see the clear reflection of profit—on page 13, this paper.
